# Carolyn Hughett

- **Software Engineer in St. Louis, MO**
  I am excited to start an apprenticeship in the tech field and to start my new career. I am looking forward to putting my new coding skills to work for a company that will allow me to continue to learn and develop my skills.

## PROJECT EXPERIENCE

**Growing Garden** — Gardening Tracking App

- Designed to track the plants in different garden beds around a person's house and the basic needs of the plants.
- Add plants and important information to database.
- Search database by plant or bed location.

## WORK EXPERIENCE

**Full Time Brand Ambassador** — Swarovski, St. Louis

March 2019 - Present

- I am responsible for helping customers find the right jewelry item for their needs. I ask open ended questions to help determine what is right for them.
- I have consistently exceeded sales goals each month set for me by management and helped lead the store to achieve our goals every month that I have been back on the team.
- I help to maintain visual merchandising standards and inventory control levels.

**James Avery Counter Manager** — Dillard's, St. Louis

July  2017 - March 2019

- I trained and coached all sales consultants on James Avery product, equipment, and policies.
- I helped existing customers find their new favorite charm for their bracelet and had fun teaching new customers all about the brand and watching them build their new favorite jewelry collection.
- I was in charge of coming up with my own visual merchandising displays that were used as examples for other stores in the district.

**Full Time Brand Ambassador** — Swarovski, St. Louis

March 2013 - July 2017

- I was always a top salesperson on the team, consistently achieving my personal sales goals each month.
- I was responsible for customer service, visual merchandising to company standard, inventory control, and monitoring key performance indicators.
